Precautionary Boil Water Notice

Attention: City of Auburndale public water supply customers residing at the following locations: All of Hamptons Golf Club

The city is repairing a broken water main. Due to the length of time for this work and the low water pressure experienced during this repair, we advise that all water used for drinking or cooking be boiled. A rolling boil of one minute is sufficient.

The City of Auburndale will flush and chlorinate the line and collect samples for bacteriological analysis after the repair is complete. This "Precautionary Boil Water Notice" will remain in effect until the bacteriological survey shows the water is safe to drink, and you will be notified of the rescind order.

If you have any questions, you may contact John Dickson, Director of Public Works, at 965-5511.

Sincerely,

Mike Harrison
